1. Executive Summary

Company Overview

At Haifa Atallah Madlouk Al Shammari Co., we believe every project begins with a vision — and our role is to transform that vision into a lasting reality. Founded with deep Saudi Arabian roots, our company was created to be more than just a construction provider — we are a trusted partner in shaping the Kingdom's future. By combining local understanding with international construction techniques, we deliver solutions that are innovative, efficient, and tailored to the unique needs of each client.

Our success is driven by our commitment to excellence, safety, and sustainability. With every project, we uphold the highest standards of quality and management, ensuring that our work not only meets but exceeds expectations. From concept to completion, we work hand-in-hand with our clients, turning ideas into landmarks that inspire.

Vision & Mission

Mission

We are committed to providing toptier construction, finishing, and industrial solutions while ensuring sustainability, efficiency, and safety. Our mission is to exceed client expectations through innovation, technical excellence, and a strong focus on quality.

Vision

To be the leading name in the construction and industrial services sector, delivering unparalleled quality while upholding the highest safety and environmental standards.

Integrity & Transparency

We believe in honest, ethical, and responsible business practices.

Quality Assurance

We adhere to the highest construction and finishing standards.

Safety First

We prioritize a zeroaccident work environment.

Client Satisfaction

We deliver projects that align with our clients' visions and requirements.

Innovation & Growth

We continuously improve by integrating the latest technologies and industry trends.

PROCESS & PIPE LINES

Expert in field hydro testing, purging, air blowing, and pipeline maintenance to ensure reliable and efficient process operations.

Contracting

Comprehensive contracting services including supply, construction management, general contracting, and design-build solutions.

Electrical

Design, installation, and maintenance of low- and medium-voltage power systems, switchgear, and distribution networks.

HVAC

Providing complete heating, ventilation, and air-conditioning solutions, including system design, installation, and maintenance.

Information Technology

Complete IT infrastructure, networking, and security solutions to optimize and manage enterprise operations.

Manpower Services

Reliable staffing solutions providing skilled professionals for temporary, permanent, and project-based requirements.

Mechanical

Specialized in mechanical design, structural fabrication, equipment installation, and pipe rack erection for diverse industrial needs.

Civil

End-to-end solutions for residential, commercial, and infrastructure projects including roads, railways, and more — ensuring quality, safety, and timely delivery.

PROCESS & PIPE LINES ACTIVITIES

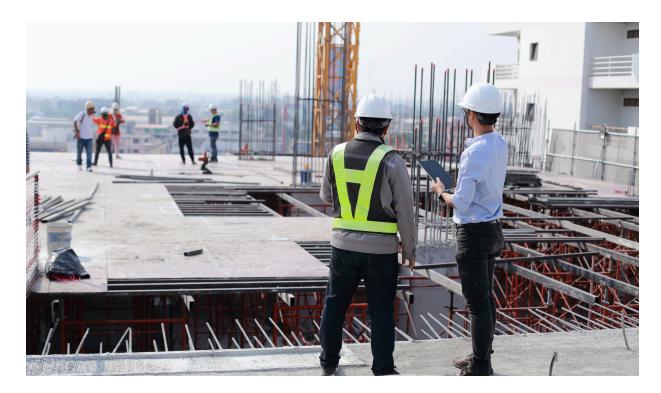

- Conducting field hydrostatic pressure testing for pipeline integrity
- High-pressure air blowing and drying to ensure system cleanliness
- Cryogenic or membrane nitrogen purging for safe commissioning
- Precision bolt tensioning and torquing for leak-free connections
- Dewatering of pipelines and process systems prior to operation
- Mechanical and chemical pipeline cleaning for smooth flow
- Flushing and retro-jetting to remove debris and contaminants
- Conventional flooding and gauging for pipeline preparation and verification

CONTRACTING ACTIVITIES

- Comprehensive construction management, from planning to delivery
- Full-service general contracting for projects of any scale
- Design-build solutions for seamless project execution
- Renovation, remodeling, and upgrades of existing structures
- Civil engineering and infrastructure development services
- Execution of large-scale commercial construction projects
- Residential construction with a focus on quality and efficiency
- Strategic project planning, scheduling, and development
- Specialized contracting services tailored to client needs
- Preventive maintenance and repair for long-term reliability

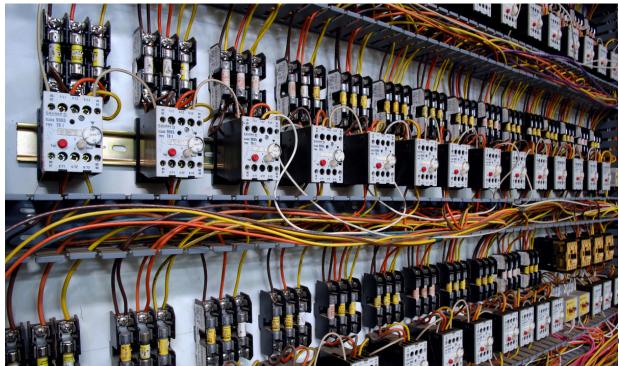

08

ELECTRICAL ACTIVITIES

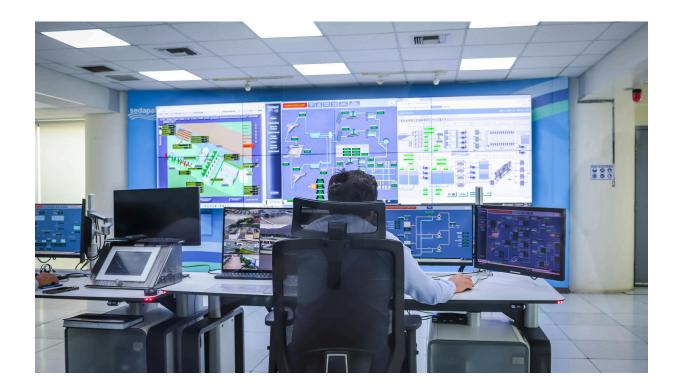

- Installation and maintenance of LV panels, switch rooms, and bus bar risers
- Supply, laying, and termination of electrical cables and wiring systems
- Implementation of low-current systems and central battery backup solutions
- Setup of CCTV, SMTV, and advanced security monitoring systems
- Structured cabling for efficient data and communication networks
- Design and installation of automated lighting control systems
- Earthing system installation and lightning protection for safety compliance
- · MV and HV cable splicing, testing, and commissioning for reliable power distribution

INSTRUMENTATION & TUBING ACTIVITIES

- Installation and calibration of pneumatic instruments with precise piping connections
- Design, setup, and integration of Direct Digital Control Systems (DDCS)
- Complete tubing installation for process and control applications
- Hot oil flushing to ensure system cleanliness and reliability
- Precision threading and cutting for custom tubing solutions
- Installation of instrument cable trays for organized wiring management
- Cable termination and connection for accurate signal transmission
- Leak testing of tubing systems to ensure safety and performance

FIRE FIGHTING ACTIVITIES

- Supply of complete fire fighting systems and equipment
- Professional installation of fire detection and suppression systems
- Water-based fire protection systems for commercial and industrial facilities
- Foam-based fire suppression solutions for high-risk areas
- Gas-based fire protection systems including FM200, NOVEC, Inert Gas, and Aerosol systems
- Wet chemical kitchen hood systems designed as per NFPA 17A and UL300 standards
- Installation of dry and wet riser systems for multi-story buildings

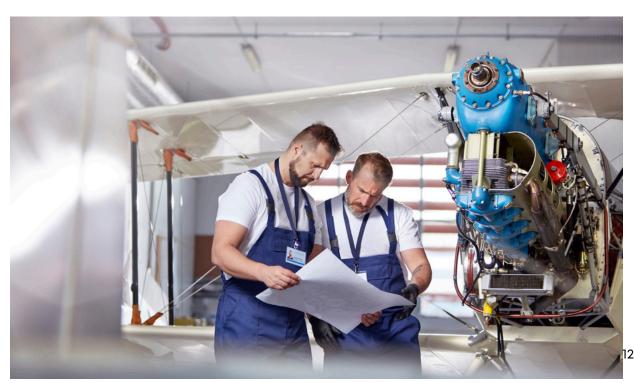

MECHANICAL ACTIVITIES

- Structural steel fabrication and assembly for industrial projects
- Pipe rack erection and support structure installation
- Prefabrication and on-site installation of piping systems
- RTR (Reinforced Thermosetting Resin) prefabrication and installation services
- Pipeline laying, erection, and alignment for smooth operations
- Fabrication and installation of pressure vessels and skid-mounted systems
- Mechanical system design, engineering, and integration
- Installation, testing, and commissioning of pumps for various applications

CIVIL ACTIVITIES

- Construction of modern residential buildings and housing communities
- Development of commercial complexes, offices, and retail facilities
- Execution of industrial plants and institutional building projects
- · Construction of government buildings and public infrastructure
- Development of hospitals, clinics, and specialized medical facilities
- Roads, railways, and bridge construction for urban connectivity
- Construction of canals, aqueducts, and water management systems
- Landscape design and development for urban and industrial spaces

Contracting Process

Our contracting process is built on a strategy of **selective and fair tendering**. We carefully evaluate potential suppliers and contractors through a competitive assessment process, focusing on both quality and value.

Each tender undergoes a **quantitative and qualitative** analysis to ensure commercial compliance, cost-effectiveness, and alignment with project requirements. This approach allows us to work with trusted partners who meet our high standards and deliver consistent excellence.

Procurement Terms

Our procurement terms and conditions are carefully designed to ensure clarity, fairness, and mutual confidence between all parties. They comprehensively address every critical aspect of the procurement process, including:

- Statutory and Regulatory Obligations Compliance with all relevant laws and standards
- Insurance Responsibilities Clearly defined coverage for all stakeholders
- Payment Terms Transparent schedules and conditions for smooth transactions
- Taxes and Duties Proper allocation and adherence to applicable regulations
- Termination Clauses Fair provisions to protect both parties
- Confidentiality Strict measures to safeguard sensitive information
